

# Angel Sánchez Morales

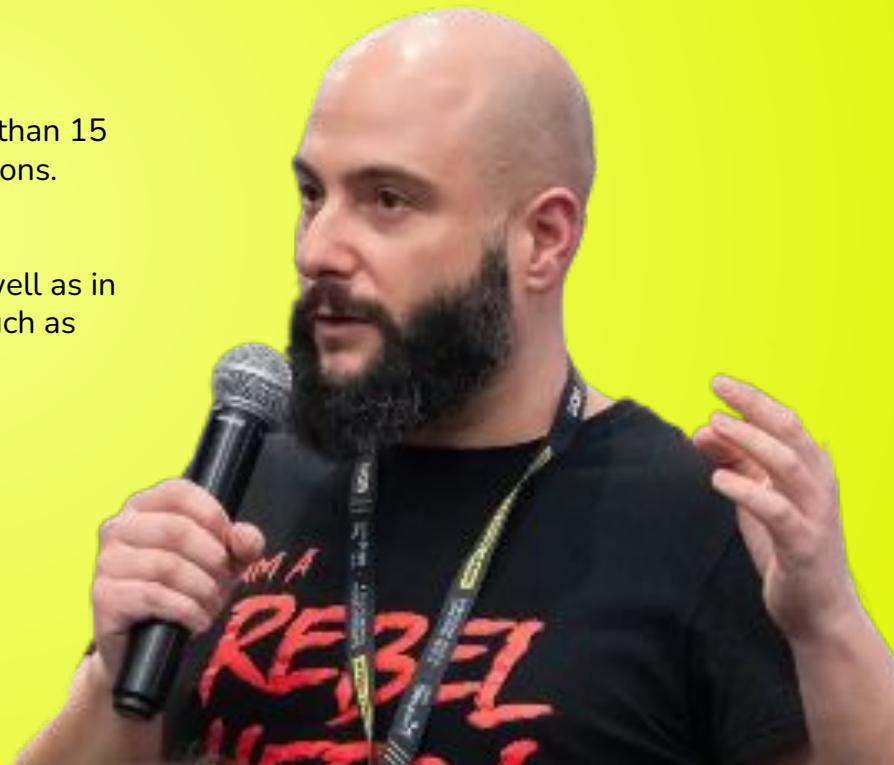

## *Imagineer Portfolio*

Hi! I'm Angel, **Software Engineer** and **Game Developer** with more than 15 years of experience creating creative and innovative software solutions.

I've worked in **video game** companies such as Socialpoint, Super Evil Megacorp, King and Digital Legends Entertainment, as well as in interactive and high performance software development in areas such as GPS, image processing tools and mobile applications.

I have also participated in **startups**, delivered **training** and collaborated with the community by organizing events and speaking engagements.

I am passionate about creating **memorable experiences** that impact the world.

# What are we going to see?

1. Boost your business with efficient digital management
2. Processes I can help you with
3. Tools and technologies I master
4. Soft skills that represent me as an A-Player
5. Some of my work
6. How you can contact me

# Boost your business with efficient digital management

In the digital world, organization and efficiency are key to success. As a **Digital Office Manager**, I can help you **optimize processes**, manage **digital tools** and ensure everything runs smoothly so you can focus on growing your business.

With a background in software development and digital management, I mix **technical skills** with a **strategic approach** to improve **productivity**, **automate tasks** and optimize communication. In addition, my **adaptability** and **problem-solving skills** allow me to deliver **customized solutions** for each client.

If you are looking for someone to transform your business management with effective digital tools, improve organization and help you optimize your time, let's talk!

- **Innovative spirit:** Curiosity and willingness to experiment with new ideas and approaches.
- **Approachability and dynamism:** Creating pleasant and relaxed work environments.

# Some of my work:

## Software licenses masterclass:

## nT Masquerade: conceptualization and implementation of software to improve ink separation in a design

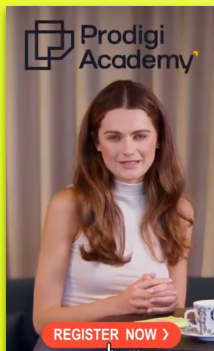

### nT Masquerade

#### SEPARACIONES DE COLOR FÁCILES Y RÁPIDAS

Con el nuevo complemento de Adobe Photoshop™ nT Masquerade, ya disponible en el paquete neoTextil de Inédit, puedes crear separaciones de color extremadamente precisas en menos de cinco minutos. Elige los colores que quieres separar y el software hará las separaciones automáticamente. Puedes guardar el archivo obtenido en un archivo multicanal y estará listo para ser impreso o, usando nT Colorations, para crear variaciones de colores.

## Social media publishing and management using AI

## Community management and event organization

### Propuesta de desayuno en el paseo marítimo en la zona de picnic:

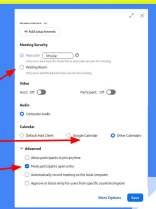

- 9:00 Llegada de asistentes
- 9:30 Bienvenida y Presentación
  - Zumos, cafés, cacaoat disponibles
- 10:00 Actividad de Networking
- 11:00 Desayuno
  - Catering gracias a El Petit Gourmet
- 12:00 Torneo de Ping Pong
- 13:00 Cierre y Entrega de Premios
  - Detallito para los asistentes
- 14:00 Comida Opcional en 6Q Restaurant

## Reports and proposals for process improvements

### Envío del evento:

3. Para no tener que estar pendiente de la gente que quiere entrar. Y dado que los asistentes van a ser gente de la comunidad, no hará falta bloquear la entrada a nadie, desactivaremos la sala de espera.
4. Usaremos el calendario correspondiente para que se efectúe el mailing con la invitación al evento
5. Mutearemos a los participantes al entrar
6. Clickamos en Save

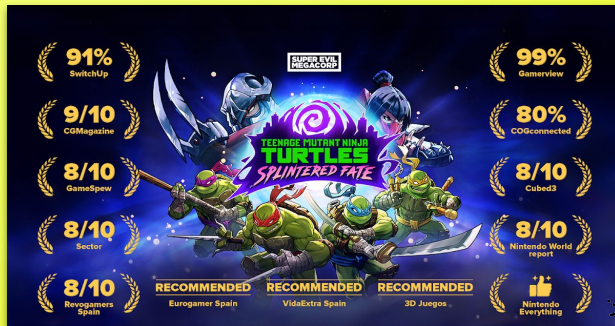

# Some of my work:

Platero ¡Sígueme!:  
conceptualization and game  
design of the innovative game  
inspired by the famous novel  
Platero y Yo by the Nobel Prize  
winner Juan Ramón Jiménez.

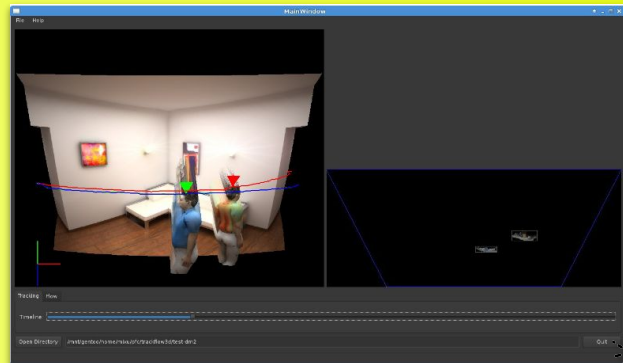

Talk about videogames from a holistic  
point of view and from psychology for  
Terra Vallalta

User interface and  
user experience  
improvements for  
the TMNT:  
Splintered Fate  
video game.

Trackflow 3D: route and flow detection  
software for venues
